

## Architect or Architectural Intern

Williams & Associates is looking to add an **Architect / Architectural Intern** to our current team. This individual will work independently and on project teams. At W&A we highly value quality architecture and make that our goal with every project. This position will be a vital part in understanding client's desires and W&A's mission while being competent in leading projects through design, Construction Document production and Construction Administration. Forethought, critical thinking, communication skills, organization and ability to problem solve with efficiency are important for this role.

Applicant should have the following qualifications:

- Professional degree in Architecture.
- 2-10 years in career field experience.
- Architect License or in process of getting licensed.
- Knowledge in REVIT & AutoCAD.
